Test/Method	Unit	Result	Specification		
Barium (Ba) - ICP-MS EN ISO 17294-2 mod. (FIN1T) Subcontracted					
Baryum (Ba) - CAS N°:7440-39-3	mg/kg	<1 (1)			

(1) This value corresponds to the limit of quantification.

Measurement uncertainty equals to 30%.

These results concern only the sample tested in the laboratory which is defined here after. Except specific case, the sample will be kept in our premises during 2 months from the date above mentioned. The sample and the information regarding sample have been provided by the client. All information related to the sample are under liability of the client and have not been checked by the Eurofins ATS company. The hereby report is not aimed to give a conformity to the present legislation. It only refers to qualitative and quantitative criteria which allow to declare the conformity to specifications of the reference file when this one has been provided by the customer. The result is declared not conform when, in spite of taking into account the measurement uncertainty at a 95 % trust level (if available), the value found cannot be included in the specification interval and/or be inferior to the regulatory limit. In the contrary case, it is declared conform. The copy of this report is only authorized by unabridged edition.
