LIQUID SOAP FOR HYDRATED ENRICHED WITH MILK PROTEINS FRESH CALLA TETE A TETE MILK RICH 400 ML

TEO

Customer information

Manufacturer --	Retailer contact --	Sample n°	761078
Batch n° 120419 15:04 B2011	Product reference --	Provided by	THE CENTER FOR STRATEGIC RESEARCH AND DEVELOPMENT
EAN13 3800024045165	Client sample n° --	Sampling point	--
DLUO 11/04/2021	Techn. file --	Picked up/received on	02/03/2020
DPAO --	Specif. date --	Start of analysis	05/03/2020
EMB ABSENT	Client purchase order no. --	End of analysis	31/03/2020

Conclusion According to the analysis results, methylparaben and propylparaben are detected.

These molecules are present in the annexe V of the Regulation (CE) 1223/2009 of the european parliament on cosmetic products:

Maximum concentration in ready for use preparation, for methylparaben: 0,4 % for single ester and 0,8 % for mixtures of esters.

Maximum concen-trationin ready for use preparation, for propylparaben: 0,14 % (as acid)

for the sum of the individual concentrations, and 0,8 % (as acid) for mixtures, where the sum of the individual concentrations of butyl- and propylparaben and their salts does not exceed 0,14 %.

According to the obtained results, parabens should be present on the label of the packaging to be conformed with the Regulation (CE) 1223/2009.

APPENDIXES:
Analytical report

The results and observations of this test report only concern the sample provided to the laboratory and tested. Except specific case, the sample will be kept during the duration mentioned in the contract or by default in our terms and conditions from the date indicated on the present document. The sample and the information regarding the sample have been provided by the client. All information related to the sample are under liability of the client and have not been checked by the Eurofins company. This test report is not aimed to give an exhaustive conformity to regulations. It only refers to qualitative and quantitative criteria which allow declaring the compliance to specifications of the reference file when provided by the customer. The result (excluding microbiological analyses) is declared not compliant when, in spite of taking into account the measurement uncertainty at a 95 % trust level (if available), the value found cannot be included in the specification interval and/or be inferior to the regulatory limit. The copy of this report is only authorized by unabridged edition. Any publication of this report must be authorised by Eurofins.
